FOR IMMEDIATE RELEASE

## Progi acquires Ericsoft's management software for vehicle repair appointments.

TROIS-RIVIERES, December 9 2014 – Diane Chaîné, president of Progi, and Éric Gagné of Ericsoft are proud to announce the acquisition by Progi of Ericsoft's management tool for vehicle repair appointments. This software helps to improve repair shops' efficiency by managing the workload and the repair appointments' schedule.

### **Time management**

This appointment repair management tool enables repair shops to distribute repair hours needed for each vehicle across the schedule for efficient time management. Appointments and other reports are also available to help analyze and improve productivity.

### **More development by Progi**

The software will expand the range of products offered by Progi. It will continue to evolve and more development is planned to insure communication and compatibility with Progi's other tools like ProgiSync, the estimate appointment calendar and ProgiLog created for repair appointment follow-up.

### **Progi's Customer Service**

Users have access to Progi's customer service. The team is available Monday to Friday from 8 am to 5 pm. For customers already using the software, the agreed support period ending on February 28 will be honored.
